## PREFACE.

---

FINDING it necessary to issue a new edition of our Skate List, we have taken advantage of the present low cost of all material, and have thoroughly revised all the prices in the book. Taking into consideration the quality we give, we fear no competition, as we have cut down our profits as low as possible, and the terms are such as we could not possibly give if we did not prepare our stocks during the summer months. Orders should be sent without delay, so as to ensure delivery in November.

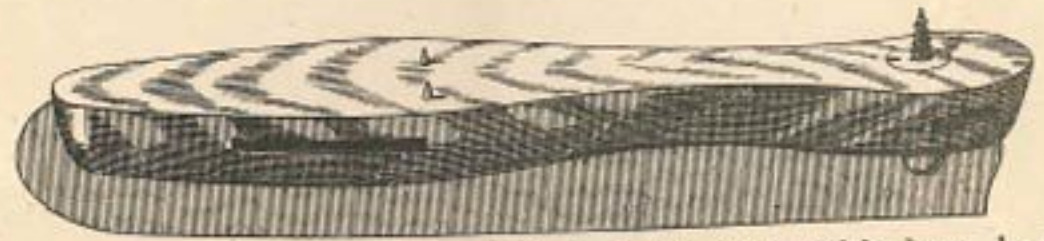

*August, 1881.*
