NINETY TWO YEARS OF PROGRESS

1843 — 1935

EARLY SHIPPING METHODS

OUR FIRST BUILDING

A. F. Shapleigh

BORN JANUARY 9, 1810. DIED FEBRUARY 27, 1902.
ESTABLISHED THIS BUSINESS
IN ST. LOUIS, IN 1843

In 1843, Mr. A. F. Shapleigh brought overland and by river, to St. Louis, the first Wholesale Hardware Stock to be located west of the Mississippi River.

Thus established, the House of Shapleigh has steadily and continuously kept abreast of the development of the vast area it serves.

The degree of success achieved is in large measure due to the mutual friendship and co-operation always existing between the House and the Retail Hardware Trade of the United States.

Foreword

WE THINK THIS CATALOG, which we are proud to send you with our compliments, is the best catalog for reference and information that has yet been issued.

It contains a wonderful lot of information that is of benefit to all hardware dealers. The accuracy of description, compactness of formation and the improved grouping of articles according to their relation to each other, is the best we have seen.

We have also introduced throughout the book a large number of helpful selling and buying suggestions. There has been inserted a discount table, which is of great assistance to dealers in figuring their selling price. The manner in which the articles are described in the catalog is such that many articles may be successfully sold from the catalog.

The approximate pricing system is very simple and accurate and represents the prices ruling at this date. As you know, prices on the merchandise contained in this book, are subject to change, therefore it is necessary for us to make the approximate prices subject to change without notice.

We believe this catalog will be of great value to you *if you will use it*. We hope that you will, and that you will make it your *constant book of reference*. We want you to send your mail orders direct to us. Our Mail Order Department is one of the most important departments that we have. It is well organized and in charge of a gentleman of large hardware experience who prides himself on the up-to-date service in every respect that his department provides. He says he will guarantee perfect satisfaction.

The specific purpose of this catalog is to promote closer relationship between us and to be mutually beneficial. We solicit your frequent orders through our representative and by mail. They will always have our prompt and interested attention and we promise you perfect satisfaction in every way.

For over ninety-one years the Shapleigh Hardware Company has been continuously in the jobbing hardware business in this city.

We feel justly proud of our record of over ninety-one years of *honorable service to the retail trade of the United States*, a service which we promise to continue always. Again assuring you of our earnest desire for closer, more intimate relationship and hoping that we may both mutually benefit by the issuance of this complete up-to-date catalog, we are

Very respectfully yours,

SHAPLEIGH HARDWARE COMPANY

PRESIDENT

When in St. Louis be sure to come and see us, a most cordial welcome will be yours.

DIAMOND EDGE TOOLS WERE THE FIRST LINE OF EDGE TOOLS IN THE UNITED STATES TO BE COVERED BY A JOBBERS TRADE-MARK

UNITED STATES PATENT OFFICE DECLARATION

STATEMENT AND DECLARATION OF THE ORIGINAL
DIAMOND EDGE TRADE-MARK

"The trade mark has been continuously used by said corporation since the Month of May 25th, 1864.

The class of merchandise to which this trade mark is appropriated is cutlery and edge tools, and the particular description of goods comprised in such class on which it is used by the said company is knives, razors and axes, and other edge tools."

Every Tool bearing the *DIAMOND EDGE* Trade Mark is, to the best of our knowledge and belief, made of the finest materials obtainable, is personally examined by us, and will perfectly serve the purpose for which it is intended.

We therefore confirm our long standing

DIAMOND EDGE Guarantee, viz:

"We guarantee this tool to be properly made and tempered, and that the steel is free from manufacturing defects. If found otherwise and returned to us we will give a new one for it."

This guarantee does not apply in any instance where tools returned for replacement show that they have been abused, misused or subjected to improper treatment.

Shapleigh Hardware Co.

A873938

"*DIAMOND EDGE IS A QUALITY PLEDGE*"

Slogan First Used in 1909

A Guarantee

and What It Means

Every article bearing the *DIAMOND EDGE* Brand is Guaranteed to be properly made of the best material, carefully finished and inspected and that it will perfectly serve its intended purpose.

If there is a defect in the steel, it will break.

If there is a temper crack in a tool, it will break.

If a tool or knife blade is not properly tempered, the steel will show it.

These things sometimes happen, and the *DIAMOND EDGE* Guarantee gives you full protection.

. . . but . . .

Abuse and misuse will ruin any tool;

Dry grinding will draw any temper;

Prying with a high tempered knife blade, will break it;

Chopping with a frost cold axe will break the edge;

An axe, reground too thin will break;

Such mistreatment is not covered by any Guarantee---failure from these and similar causes is not the fault of the seller.

ABUSED TOOLS TELL THEIR OWN STORY

. . . and . . .

THE ABUSER MUST BE THE LOSER

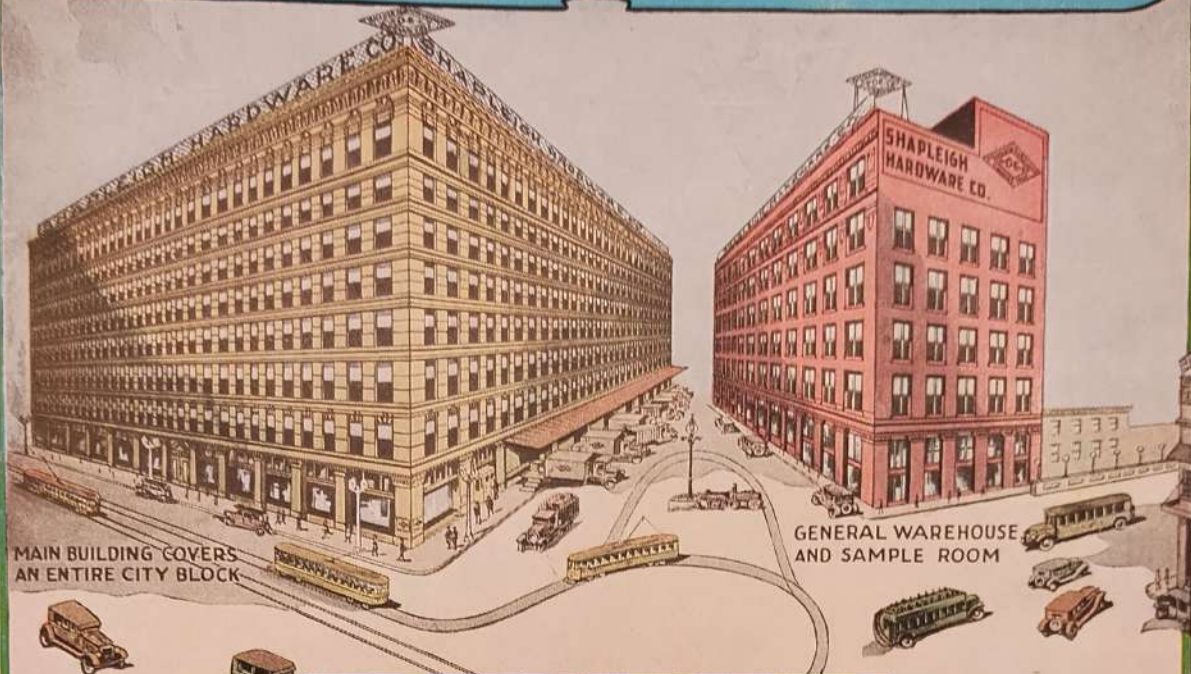

Shapleigh Hardware Co.

SHAPLEIGH'S POINTERS

TOYS AND HOLIDAY GOODS

Catering as we do to thousands of wide-awake retailers throughout the United States, we have spared neither time nor expense in searching the markets of the world for articles that every dealer may safely stock with the assurance that his patrons, no matter how exacting, will find perfectly satisfactory.

Their appeal to childhood and youth is so great as to be irresistible to the fathers and mothers who are purchasing agents for Santa Claus.

Owing to their Seasonable Character, Toys are not included in this Catalog, but appear in a special Booklet issued early in the Fall.

We solicit your orders by mail and through our salesmen.
