"DIAMOND EDGE IS A QUALITY PLEDGE"

THE *DIAMOND EDGE* TRADE-MARK

DIAMOND EDGE TOOLS WERE THE FIRST LINE OF EDGE TOOLS IN THE UNITED STATES TO BE COVERED BY A JOBBING TRADE-MARK.

UNITED STATES PATENT OFFICE DECLARATION

STATEMENT AND DECLARATION OF THE ORIGINAL *DIAMOND EDGE* TRADE-MARK.

The trade mark has been continuously used by said corporation since the Month of May 26th, 1901.

The class of merchandise in which this trade mark is appropriated is cutlery and other tools, and the particular description of goods recognized in such class on which it is used by the said company is knives, razors and axes, and other edge tools.

Every Tool bearing the *DIAMOND EDGE* Trade Mark is, to the best of our knowledge and belief, made of the finest materials obtainable, is personally examined by us, and will perfectly serve the purpose for which it is intended.

We therefore confirm our long standing

DIAMOND EDGE Guarantee, viz:

"We guarantee this tool to be properly made and tempered, and that the steel is free from manufacturing flaws. If found otherwise and returned to us we will give a new one for it."

This guarantee does not apply in an instance where tools returned for replacement show that they have been abused, misused or subjected to improper treatment.

Shapleigh Hardware Co.

"*DIAMOND EDGE* IS A QUALITY PLEDGE"

Shapleigh Hardware Co. 1909

A Guarantee and What It Means

"I broke this blade when I cut a white pine angle. You guaranteed to give me a new one.
A Diamond Edge Knife. It was and the work showed that lawless steel.

"You guaranteed this Diamond Edge Hand Saw; its too hard, five teeth broke out when I saw it."

The saw clearly showed that its end of setting the points of the teeth as he should be and tried to bend the whole tooth—of course some of them broke.

"This Diamond Edge Axe is no good, look how the edge bent chipping a chunk of soft pine; give me a new one."

The edge did bend, but it had been used on a dry wheel 'til the fine temper was drawn and the bit too thin on the sides.

When we guarantee a tool of any kind, we guarantee that it is properly made of the best material, properly tempered and fully tested, will perfectly serve its intended purpose.

If there is a defect in the steel, it will break. If there is a temper crack, it will break; in either case the Fracture will show the cause. If the tool is properly tempered, the steel will show it. These things sometimes happen and the Guarantee gives you full protection.

But abuse will ruin any tool; dry grinding will draw away temper; dry cutting a high tempered knife blade, etc. it will fracture; a sure and certain result not covered by any guarantee. The Abuser must be the loser.

And you Mr. Merchant, when you allow yourself to be imposed upon to the extent of replacing an inferior tool, have not only dissipated your reputation as a good merchant but you have lost money too.

You sold the tool on credit, if you refused to pay you have lost the sale and the profit. If you acquiesce unjustly, you cannot expect the law to aid you; you are the Jobber to give your credit for it.

Repeatedly show us some of us authentic reports of losses like this. Why spend money for new tools when I can buy one that's guaranteed, and be smart enough to trade it in for new ones in when we please?

The Guarantees we give on our Cutlery and Tools insure to you the highest value in quality and workmanship, in any

DO NOT COVER ABUSE OR MISUSE

"DIAMOND EDGE IS A QUALITY PLEDGE"

ST. I
PUB
LIB

Another year has slipped into the past; to some a year of happiness and gain; to others, alas, of grief and loss; to some a year of great accomplishment; to others, of striving nobly but in vain.--

In greeting you as is our long time custom, we would share with you this golden thought:-

Diamond Edge is a Quality Pledge

For when the One Great Scorer comes to write against your name he writes Not that you won or lost but how you played the game.

SHAPLEIGH HARDWARE CO.
ST. LOUIS, U.S.A.

We wish all good things to be yours.-aye, better still, that when the Game is played, The One Great Scorer may write across your score the blessed words - **WELL DONE** --

At the coming of the *Seventy-ninth* Holiday Season in the History of the House of Shapleigh, the Men and Women who compose its organization desire to express again their cordial

Christmas Greetings to the multitude of staunch Friends, old and new, at home and abroad.

Throughout these many years, some bright with prosperity some dimmed with adversity - that priceless possession

Friendship has made the relationship of the House and its Patrons unique in the annals of business.

And so, with sincere appreciation of the Fellowship and Goodwill of days past and with Every Good Wish for the days to come, the Men and Women of the House of Shapleigh ask nothing better than that the Fine Spirit of Friendship and Mutual Goodwill shall continue unbroken through all the Years.

1843·EIGHTY YEARS OF HONORABLE SERVICE·1923

GOOD SERVICE

MAIN BUILDING

Mechanics and Farming Tools

Nothing in the entire line of Hardware exceeds in importance the group comprised by the Tool Department. In this particular, we point with pardonable pride to the completeness and superior excellence of our Mechanics Tools.

Beginning in 1843, we have year by year devoted our best thought and most earnest endeavor to the building up of this Department. We have had the hearty co-operation of the best manufacturers; we have studied the varied needs of tool users and adopted every improvement of proven usefulness suggested by them. As the logical result, we are able to present a line of Tools of unquestioned superiority, complete in every detail of quality and service.

DIAMOND EDGE TOOLS have stood the test of over Fifty years of actual use in all parts of the world and under every conceivable condition. For originality, ingenuity, design, distinctiveness and convenience, they are without equal. Special analysis steel is used, extra finishes are given, distinguishing refinements are added when such costlier materials and processes contribute to the production of better Tools. Every Diamond Edge Tool is fully warranted, not that it cannot be ruined by abuse, but that it will do more and better work than can reasonably be expected of it.

DIAMOND EDGE TOOLS are sold and recognized as being superior in all respects to regular standard grade Tools.

BRIDGE TOOL CO. is the trade marked name we apply to every tool of standard grade in our line. Tools bearing this brand are full standard in quality and workmanship, lacking only the costly extras described above to make them equal to our famous Diamond Edge. Bridge Tools compete on equal basis of both cost and service, with the leading Factory Brands.

MOUND CITY brand denotes good serviceable Tools, competitive in price, sold on merit, with no guarantee but popularly known and accepted throughout the hardware trade.

TO THE QUALITIES defined above, must be added the fact that large stocks, fair prices and Good Service insure to the trade that pleasure and profit which is the essential feature of long continued business relations.

SKIS

*DIAMOND BRAND

Whenever the Snowfall is Sufficient to Make Good, Steady Sleighing, the Use of Skis in Work and Play is Becoming Popular, and in Those Regions Where the Snow Becomes Deep as it Does in the Mountains and Hilly Country and Occasionally on the Prairies of Dakota and Minnesota, Skis are Recognized as Necessities. More Durable than Snow Shoes and Allows the Wearer to Cover More Ground in Less Time and with Less Fatigue.

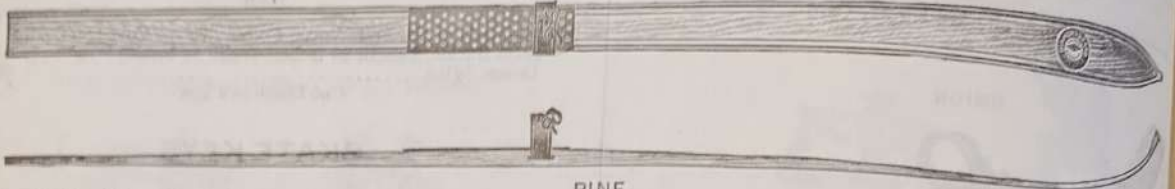

All Diamond Brand Skis are Made of Best Selected Material, Thoroughly Kiln Dried, and Free from Knots and Blemishes; Each Ski Provided with Suction Tread Rubber Foot Rests and Best Quality Harness Leather Toe Straps.

All Diamond Brand Skis are Patterned After the Latest Approved Norwegian Models.

Cut Shows Suction Tread Rubber Foot Rests Used on All Diamond Brand Skis.

Modeled on Practical, Proven Always Uniform Throughout and Never Lose Their Shape.
